

Everyday Objects in Ball Pen

Two-Day Live Workshop · Supply List

29 & 30 August 2026 · Sat & Sun · 5:00–7:30 PM IST · Live on Zoom

Brand recommendation options are provided for convenience. Please purchase any one suitable item from each category, based on availability. Anything you already own is perfectly fine.

1. Black Ball Pen

One black ball pen is the whole toolkit for these two days. Any of the three below works; pick whichever you can get. A pen that writes smoothly without skipping matters more than the brand.

OR

Pentonic Black Ball Point Pen · amzn.in/d/9QDvCI7

OR

Hauser Black Ball Pen · amzn.in/d/075wXBn5

2. Sketchbook

A smooth-surfaced sketchbook holds ball-pen line better than a textured one. A4 or A5 is the right size for these sessions, in 120 GSM paper or heavier.

Anupam Square Sketchbook · amzn.in/d/fS5FtUR

OR

Any A4 or A5 sketchbook with 120 GSM paper

3. Pencil

The pencil is only for a light construction line before the pen goes down. Either of these is fine, and please do not buy a new one if you already have a pencil at home.

OR

HB Pencil · amzn.in/d/00ifSjit

4. Your Own Objects

Nothing to buy here. This workshop draws from what is already on your table, so keep three or four simple things within reach before each session: a cup, a bottle, a pair of scissors, a folded cloth. Objects with a clear shape and a plain surface are the easiest to start with.

5. Optional but Helpful

- A second pen of the same kind, in case one stops writing mid-drawing
- A desk lamp or any single light source, which makes the shadows far easier to read
- A clip or a bit of tape to hold the sketchbook flat while you work

Quick checklist: any one black ball pen, a sketchbook in A4 or A5 at 120 GSM or heavier, a pencil for light construction lines, and three or four everyday objects from your own table.

Need help choosing? The list above should be enough. If you would still like a hand, reach out before or after registering and we will be glad to help.
